To Whom It May Concern:

This letter is in reference to Kevin Fore as well as World Wide CAD Technology. I have been working with Kevin for several years. During that time, Kevin and his team have been very responsive to all of my needs. Their quality has been excellent, and the value I get for the dollar is unmatched. They have turned around many of my "hot" jobs even quicker than requested, including working off-hours and weekends when required.

I highly recommend Kevin and his team for any design and drafting functions that your company might need.

If you have any questions, please feel free to contact me.
